

Om Sai Products

Where Innovation Meets Perfection

*Since
1986*

**Manufacturers & Exporters of
Metal Turned Components & Moulding Inserts**

About Us

Om Sai Products is an established name associated with the Manufacturing and Supplying of a wide assortment of metal products. The varied products we fabricate are in high demand persistently meeting our client's expectations in product performance, service and delivery. The company caters to an enormous clientele network. We are capable of delivering to a customer base with the aid of an extraordinarily dexterous workforce that is talented and dedicated. The products manufactured and supplied all across India and in the international market are made keeping the market requirements in view.

We are a leading inserts manufacturing company, providing a wide range of standard and non-standard inserts in a variety of materials, sizes, types, and quantities. We use high grade raw materials to design and manufacture high quality inserts as per the specifications. To meet all simple to complex industrial or commercial applications, we also provide custom inserts as per custom design/ drawing/ sample/ dimension specification. These inserts are available in various shapes such as rectangular inserts, round inserts, hexagonal inserts, triangle inserts, pentagonal inserts, octagonal inserts, and custom shape inserts.

Our Mission

To continuously strengthen and upgrade our manufacturing processes, quality systems, and people competencies by training & education and providing a safe workplace.

Our Vision

To provide high-quality, value-added precision and fastening solutions, positioning our clients ahead of the competition and at the forefront of technology.

Industries We Serve

We provide services to a diverse range of sectors and have tailored our offerings to meet their specific needs. We have adapted our services to suit a range of different industries. The following list includes a few of the industries we service

Electrical

Automotive

Oil & Gas

Fittings

Solar

Power

Quality Assurance

Superior quality is the primary concern at Om Sai Products. We strictly adhere to stringent quality management systems in order to facilitate an error free production from every stage. Our entire manufacturing process is monitored by a team of well professionals having years of experience behind them. A team of trained supervisors and quality control inspectors ensures that the quality is maintained at all the stages of production.

Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods. Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch. Every employee of the company is committed to the pursuit of excellence with continuous improvement of the Quality Management System.

Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the Inspection on each Individual product. Batch Inspection is not permitted in the company.

Packing & Dispatch

We understand that packaging is the most important aspect. After inspection, each order is directed to a particular packing location. The completeness of whole order can be checked here optionally. Then the packing list gets printed and the whole order is packed and dispatched on time.

Quality Equipments & Gauges

As the Instruments are the heartbeats of industry, to assure good quality of products, quality instruments are required. Company has invested a good amount behind this to have majority type of Inspection instruments including all instruments and gauges along with the profile projector and other sensitive instruments.

Brass Inserts

Brass CNC Turned Components

We are manufacturing high-quality CNC Machined Components as per industrial needs. Our components are equipped with turning equipment, precision machining, which ably supports keeping in mind the vast necessities of the patrons. We manufacture these components in a wide range as per customer specifications. Our experts provide strong efforts to design and develop CNC Machined Components in different types of threads. CNC Machined Components are ranging from very large parts to extremely small or precision machined components. We also provide bulk manufacturing or mass production for CNC Machine Components.

Brass Forged Machined Components

We are specialized in Manufacturing of Brass Forged Machined Components. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forging Parts as per customer's designs and requirements.

Brass Casting Components

We manufacture different Metal Casting components, including Iron castings, forgings, high and low-pressure die castings, gravity castings, aluminum extrusions, metal stamping, tubes, tools, dies, molds, and fixtures. Steel and Iron are the two most commonly used materials for casting due to their excellent mechanical properties suitable for various applications. We also offer casting from Brass, Gun Metal, Phosphor Bronze, High Tensile Brass, Aluminium Bronze, Manganese Bronze, Silicon Bronze, and Lead Bronze.

Brass Tailormade Components

We are leading manufacturer of Brass Tailormade Components providing customized products to achieve the desired specialization in the production of parts. These components are widely used in Engineering, Aerospace, Medical, Agricultural, and Machine Tool Industries. We are well known in the market for our various excellent products. We manufacture these components as per client's customized requirements. We manufacture these parts using high-grade raw brass materials as per the industrial standards and customer specifications.

Infrastructure

At Om Sai Products, we prioritize excellence through our state-of-the-art in-house manufacturing facility, equipped with cutting-edge machinery and operations leveraging innovative technologies. The industrial landscape boasts the latest and ultra-modern automatic equipments that defines the pinnacle of technological advancement, managed by a team of highly experienced and skilled staff dedicated to producing materials of controlled quality. This machinery is not only a testament to our dedication to staying at the forefront of industry standards but also a reflection of our commitment to quality.

We not only prioritize quality production but also contribute to a greener and more sustainable future. Our dedication to environmental stewardship reflects our holistic approach to responsible and forward-thinking manufacturing. The sophisticated production facilities enable us to execute orders of various sizes and specifications. The infrastructural facilities are also equipped with sophisticated packaging equipment and machinery to ensure quality packaging that ensures safety of products during transit and delivery.
